

## Environmental Policy Consultant or Senior Consultant [ENV22-001]

**Start:** As soon as possible  
**Location:** Rotterdam/Brussels

Trinomics is a leading consultancy firm dedicated to supporting the transition to a low-carbon, green and climate-resilient society. Our work includes applied economic research and policy advice, capacity building, and knowledge transfer in different subsets of environmental policy topics, with clients ranging from European institutions to national governments in Europe, to international clients such as bilateral and multilateral donors and international financial institutions.

As part of the expansion of our European and international business operations, we are looking to hire two motivated and experienced Consultants (minimum 7 years of topic specific experience) or Senior Consultants (minimum of 10 years of topic specific experience) to join our Environment Policy team (full-time) either in our premises in Rotterdam, Brussels or Paris. Successful applicants will support the team in developing strategic policy advice in the fields of European biodiversity and nature related policies. In particular, we are looking for **applicants with technical expertise in one or more of the following areas:**

1. Sustainable finance
2. Air quality and pollution
3. Environmental economics
4. Industry and green transition
5. Water resource management and adaptation

### About Trinomics

Trinomics specialises in providing independent research, advice, and solutions to (semi-)public clients in relation to climate, energy and the environment. From a thematic perspective, the environment team has a strong track record in EU biodiversity and circular economy policies. Our team has participated in the development of key environmental EU policies, including having led the 'Evaluation of the [EU Biodiversity Strategy to 2020](#)' and the 'EU ecosystem restoration targets impact assessment' that has most recently led to the European Commission's proposal of Nature Restoration Targets. Next to that, we led the '[Impact Assessment on the Sustainable Product Initiative](#)' and several circular economy projects as well as several contracts with a focus on Africa, where we are supporting countries such as Rwanda and Ghana to develop so-called 'circular economy action plans'.

Our team has been steadily growing over the past 10 years, attracting experts from various backgrounds and fields. Our staff is made up of over 29 nationalities and able to work in 15 languages.

### Profile of the candidate

As an Environmental Policy Consultant, you have profound knowledge of the different fields of environmental policy listed above and policy assessment methods across different environmental fields, strong analytical capabilities, an eye for detail, the willingness to go that extra mile if necessary, and are keen on operating in multidisciplinary & international project teams.

### Required

- ✓ Completed Master's degree in Environmental Economics, Environmental / Natural Sciences, Sustainable Development or a related discipline;
- ✓ A minimum of 7 (Consultant) or 10 (Senior Consultant) years of relevant work experience, a strong technical background and with at least 3 years of experience in a similar field (e.g. consultancy, think-tank or other (policy-) research organisation)
- ✓ Demonstrated experience in leading the delivery of consultancy projects as well as acquisition in the required areas of expertise, and a good network of established contacts with relevant EU environmental policy stakeholders;
- ✓ Very good organisational and coordination skills, with experience in managing and working with multidisciplinary teams to achieve client satisfaction and timely delivery

- ✓ Supporting the acquisition of new projects. Involves leading and contributing to proposals, planning and management, and budget negotiations
- ✓ In-depth knowledge of relevant EU strategies, policies and policy & market instruments and experience working on methods such as (EU) policy evaluations, Impact Assessments, cost-benefit analyses, indicators development, scenario building;
- ✓ Capable of working in a fast-paced environment
- ✓ Strong analytical and critical thinking skills required
- ✓ Solutions oriented mind-set
- ✓ Interest to work on a wide range of EU environmental policy issues within these domains is essential;
- ✓ Ability to work, write and communicate fluently in English. The ability to work in additional languages is considered an advantage.

### What we offer

- ✓ A competitive package of employment conditions including a competitive salary as well as good secondary conditions (i.e. 28 days of holiday per year, comprehensive pension rights, commute compensation);
- ✓ Initially a one (1) year contract with the opportunity to extend this to a permanent contract based on good performance
- ✓ Flexible working hours, depending on the candidate's personal preferences and circumstances;
- ✓ Frequent social events and team-bonding activities
- ✓ Supportive, international and informal working environment, with young, talented and motivated colleagues.
- ✓ Opportunities for career development through a broad range of project topics, mentoring opportunities and in-house as well as external training opportunities

Applications (motivation letter and recent CV) should be submitted via email to [recruitment@trinomics.eu](mailto:recruitment@trinomics.eu) before **15/11/2022**. Please use the following email heading for your application: "*ENV22-002 Environmental Policy Consultant - YOUR NAME AND SURNAME*".

As part of the application process, we will invite the pre-selected candidates to conduct a case study exercise to further assess their written and analytical capabilities for the position.
